MEMORANDUM FOR: Director of Central Intelligence

SUBJECT : Significant Activities during the Period  
21 April 1973 - 27 April 1973

The following Management and Services Directorate events which were reported during your recent absence from Headquarters may be of interest to you:

1. Information Science Training

General Walters received a letter from Admiral de Poix on 20 April responding to our December 1972 request to continue using classroom and terminal space at the Defense Intelligence School through FY 1974. The Admiral explained that DIA could not honor our request because of plans to use the space for a Masters degree program. The letter did, however, offer space in the Pomponio Plaza Building in Rosslyn. Unfortunately the amount of space is inadequate to accommodate the required computer terminals and classrooms.

General Walters answered the letter on 26 April indicating that he did not feel you would be very happy with the Admiral's proposal and that you may call him upon your return to Washington. In the meantime, I have been in contact with the DIA Deputy Director for Support, [REDACTED] I plan to see Admiral de Poix on 1 May to obtain a better understanding of the problems preventing DIA from complying with our original request. Following that session I should know the alternatives available for continuing this very worthwhile inter-Agency activity. I will brief you fully following my discussion with the Admiral.
